EUROCARGO

Your EUROCARGO at a glance

A new colour language:
IVECO Grey meets a touch of red

6,7 l gas and diesel engines

Manual 6 and 9-speed and 2 types of automatic gearboxes available with gearbox Power Take Off or Sandwich P.T.O.s

Driver centricity (dash panel, instruments, and controls) and 360° driver assistance systems

Born Connected. Built to Evolve with Over-the-air capabilities from day one

IVECO Services to maximize uptime and business productivity

Engineered for your success

Versatile
Improved vehicle versatility by introducing new factory-ready provisions to support additional equipment and functionalities.

Assisted drive and safety
A full set of safety functionalities, including ADDW, DDWA direct and software updates for all ADAS functions to protect road users at 360°.

Robust
The parallel straight frame ensures strength and light weight. The most robust choice for all missions.

Capable
From the city centre to the harshest conditions, Eurocargo is capable of meeting your needs.

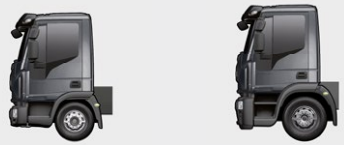
Born Connected. Built to Evolve with Over-the-air capabilities from day one
Your new IVECO vehicle is always state-of-the-art, maximizing your time on the road.

IVECO Services for your daily work
Services designed to simplify your work and protect your business. Keep your day running smoothly and your vehicle productive.

Exterior style

Stylish in all environments

The external appearance of the Eurocargo combines style with functionality. Headlamps with LED daytime running lights as standard, radar for ADAS functions, steps and grab handles to access the windscreen and side air deflectors designed to keep the door and mirrors clear even in adverse weather conditions.



1 Step 2 Steps

MLC – day, low roof

1 Step 2 Steps

MLL – sleeper, high roof

1 Step 2 Steps

MLL – sleeper, low roof

1 Step 2 Steps

MLD – Crew Cab

Interior comfort

Stylish in all environments

Driver comfort and ease of use are the hallmarks for the Eurocargo cab. The dash panel with the 10 inch instrument cluster and the 7 inch central display screen incorporating DAB radio provide the driver with all the information they need. The steering wheel and steering column controls ensure that all is within fingertip reach of the driver.

Advanced Driver Assistance Systems (ADAS)

When technology takes care of your safety and that of other road users to give you a calm, stress-free driving experience. In addition, IVECO ON and the Professional Safe Report provide smart tools to monitor safety risks and deliver insights that improve driving behavior—reducing accidents and insurance costs.

General Safety Regulations

The latest European General Safety Regulation brought to Eurocargo new features for Advanced Driver Assistance System with direct function and Advanced Driver Distraction Warning.

Cyber security

Cyber security has also been addressed. IVECO has developed Cybershield, a multi level security framework covering Electronic Control Units, internal vehicle ECU to ECU communications and all external interfaces to ensure that the vehicle is fully protected from Cyber attack.

Lane Departure Warning System (LDWS)

The LDWS alerts you when the vehicle changes lanes without the direction indicators activated.

Electronic Vehicle Stability Control (EVSC)

The EVSC system monitors lateral loads and reduces power and applies brakes to control potential spins or rollover.

Advanced Emergency Braking System (AEBS)

The AEBS system measures the distance from the vehicle in front and calculates the time of a potential collision if the driver is distracted. The brakes are applied automatically to reduce the vehicle speed and risk of collision.

Adaptive Cruise Control (ACC)*

ACC adjusts the vehicle set speed to maintain a safe distance to the vehicle in front.

Reversing Detection (REV)

This system shows the driver the view from the rear of the vehicle when reversing. It is achieved with a camera and the centre display screen on the dashboard.

Alcohol Interlock (ALC)

ALC prevents people whose driving is impaired due to excess alcohol consumption from driving a motor vehicle. This provides a standardized interface for the fitment of the IVECO factory option or any compatible aftermarket device into the truck.

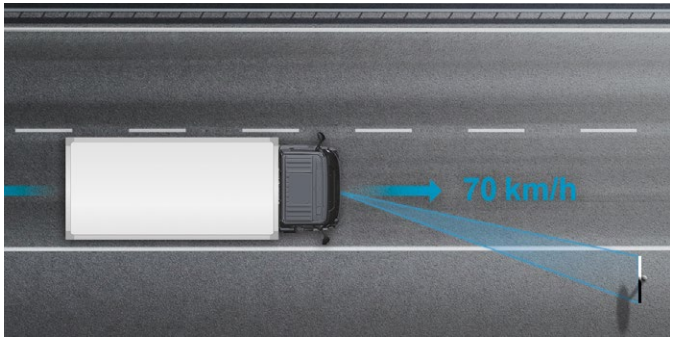
*On request.

Safety for all road users

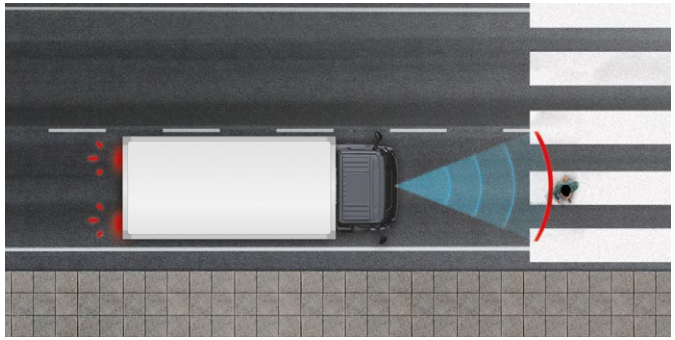
Advanced Driver Assistance System – ADAS

When technology takes care of your safety and that of other road users to give you a calm, stress-free driving experience.

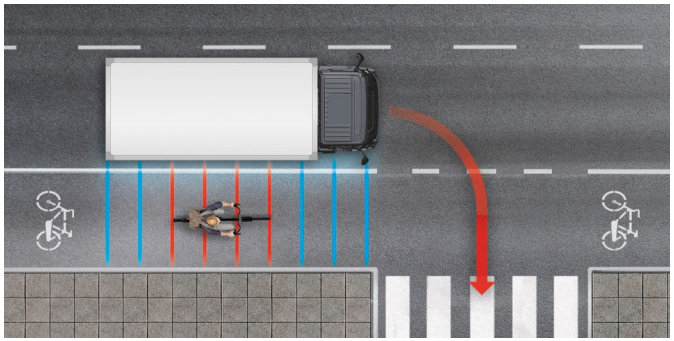
ADDW (Advanced Driver Distraction Warning)
The system monitors the driver's behaviour above 20 km/h through an infrared camera. If it detects a distraction, it provides a visual pop-up in the cluster and audible warnings.



ISA (Intelligent Speed Assist)
Intelligent Speed Assistance (ISA) is a system which aids the driver in observing the appropriate speed for the road environment by providing visual and acoustic feedback to the driver of the speed limit.

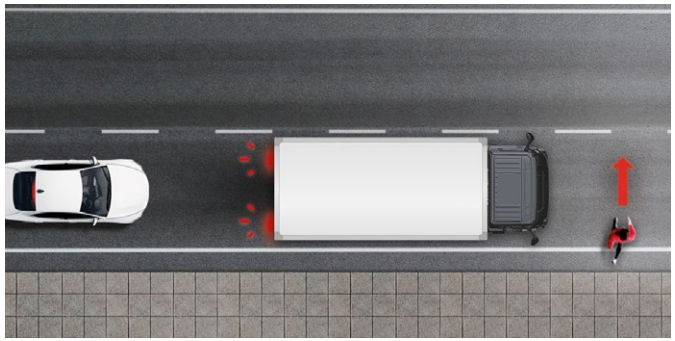


MOIS (Moving Off Information System)
The system detects and informs the driver of the presence of pedestrians and cyclists in the close-proximity forward blind-spot of the vehicle.



BSIS (Blind Spot Information System)
The Blind Spot Information System (BSIS) monitors the vehicle side and front side and warns the driver about Vulnerable Road Users in close-proximity.

TPMS (Tyre Pressure Monitoring System)
TPMS has the aim to constantly monitor the status of Pressure and Temperature of the tyres and provide warning to the driver whenever a problem occurs.



ESS (Emergency Stop Signal)
ESS enhances safety by flashing the stop lamps to warn other road users to the rear if heavy or emergency braking is being applied to the vehicle.

Driving pleasure

Every moment driving the Eurocargo is a pleasure thanks to the performance and driveability enhanced with the complete instrumentation, the multifunction steering wheel and practical column stalk controls. The added safety provided by the ADAS features gives reassurance from the city to the highway. With 100% connectivity, the driver is always able to feel connected.

100% connected brings a world of services

All of our vehicles come with a connectivity box installed, allowing the full control of your vehicle performance and state of health.
Activate the Start Pack Standard to discover the potential of IVECO Services Solutions. The Start Pack Standard includes IVECO ON Access customer portal, Uptime Monitoring & Management and the Easy Cargo App. Other packages and single services are available to support our customers in improving fuel consumption and driving style.

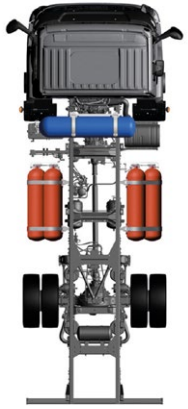
The IVECO Driver Pal is available as optional and brings a driver vocal companion with Alexa technology into your IVECO vehicle for helpful tips and safer driving.

Sustainability

CNG is the most environmentally-friendly fuel commercially available. IVECO's 6,7 litre CNG engine available with 220 hp to 280 hp. The vehicle's features are identical to the diesel versions. Thanks to the EU derogation, 18 t CNG vehicles can have a bonus mass to match the increase in tare weight. Vehicles below 18 t have optional higher GVW plating available to compensate.
The Eurocargo Natural Gas is particularly at home in major cities – its low emissions mean it is allowed to drive in restricted traffic zones and its quiet operation makes it perfect for night-time work.

CNG fuel tanks and range

Choice of CNG tanks on either side and behind the cab ensures that a range of up to 600 km range with 6x115 litre gas tanks on the side members or 900 km with additional 3x140 litre at the rear of the cab.



Tanks on both sides and behind cab

Line up for CNG

High truck performance

The 6,7 l CNG engine is available at 220, 250 and 280 hp with 800, 850 and 1.000 Nm of torque ensuring that whatever your mission there is a sustainable option for you. When powered by biomethane, it is the most efficient and readily available solution for decarbonising transport and to shrink your carbon footprint.

Transmissions

The 8 speed ZF automatic transmission ensures the optimal driveline.
A 6 speed Allison automatic transmission is also available for those missions that require it.

Versatile

The right driveline for your mission

The diesel engines on the Eurocargo are Tector 5 four-cylinder 4,5 litre and Tector 7 six-cylinder 6,7 litre diesel engines. The range includes seven power levels from 160 to 320 hp, with a maximum torque of 1.100 Nm.

These engines are mated to 6 or 9 speed manual gearboxes or the 8 speed ZF automatic transmission to ensure the optimal driveline. A 6 speed Allison automatic transmission is also available for those missions that require it.

A wide range of PTO available for all gearboxes. On automatic transmissions sandwich PTOs are now available.

Diesel engines

Euro VI engines	No. of cylinders	Displacement	Power	Max torque
Tector 5	4 in line	4,5 litres	118 kW (160 hp) at 2.200 rpm	680 Nm from 1.100 to 1.600 rpm
			137 kW (190 hp) at 2.200 rpm	700 Nm from 1.100 to 1.600 rpm
			152 kW (210 hp) at 2.500 rpm	750 Nm from 1.400 to 1.800 rpm
Tector 7	6 in line	6,7 litres	162 kW (220 hp) at 2.500 rpm	800 Nm from 1.250 to 1.900 rpm
			185 kW (250 hp) at 2.500 rpm	850 Nm from 1.250 to 2.050 rpm
			206 kW (281 hp) at 2.500 rpm	1.000 Nm from 1.250 to 1.950 rpm
			235 kW (320 hp) at 2.500 rpm	1.100 Nm from 1.250 to 1.900 rpm

120EL	12.000			T7 6,7 l	220 250	800 850				

Suspensions

You can choose the suspension type to suit any mission:
- Parabolic or reinforced parabolic leaf springs for on road use.
- Semi-elliptical leaf spring for more rugged terrains.
- Air suspensions controlled by an ECAS (Electronically Controlled Air Suspension) system to guarantee a constant vehicle height regardless of the load, they can be fitted to either the rear axle only or to both axles. They allow the vehicle to raise and lower to meet loading decks.

Third axle provision

A provision for a 3rd axle addition is now available for 16-ton and 18-ton models; thanks to this preparation and to the programming done during the conversion, all systems relevant for the 3rd axle (ECAS, braking system, TPMS, brake wear sensors) are completely integrated with the vehicle and managed as on an original 6x2 vehicle.

IVECO Services Solutions

At IVECO, we deliver Mobility Solutions that best meet your needs. Our goal is to help you reduce Total Cost of Ownership while increasing productivity by focusing on vehicle health and enhancing the driver experience, through an integrated portfolio designed to support your mission.

Uptime

Unexpected stops cost you. IVECO Uptime prevents them. Through continuous monitoring and remote diagnostics delivered by the IVECO Uptime Center and network, we reduce unplanned downtime by up to 24%.

Productivity & Efficiency

In transport, profitability depends on daily decisions. IVECO Productivity & Efficiency gives you the insights to make them. With vehicle data visibility and analytics, it helps reduce costs by up to 5% while improving safety, routes and compliance.

Driver Care

Drivers operate under constant pressure. IVECO Driver Care reduces complexity and cognitive load. Through voice interaction, connected navigation and real-time guidance, it keeps drivers focused. Accidents can be reduced up to 5%.

Safety & Security

Managing risk requires visibility and control. IVECO Safety & Security delivers both. With IVECO ON connectivity and continuous monitoring, it enables early detection of unsafe behaviour and reduces accident exposure by up to 25%.

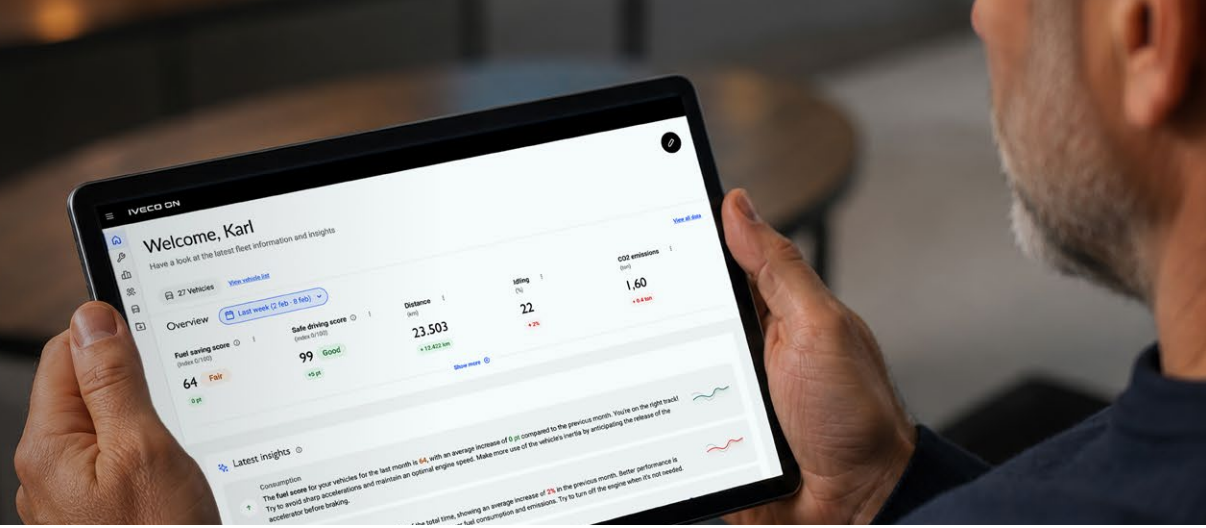
Parts & Accessories

Customize your vehicles and enhance life on board with our extensive selection of high-quality parts and services.

Connectivity

A smart way forward

Choose the connected solution that fits your business – from essential visibility to uptime support and advanced fleet insights. Add Premium services to tailor to your mission needs.



EASY

IVECO ON^{ADMIN} + Easy App

Your smart start

Access IVECO ON^{ADMIN} and the Easy App to manage your vehicles — with essential tools for vehicle administration, maintenance planning and daily operations, all within reach — anywhere, anytime.

SUPPORT

EASY + Uptime monitoring

Uptime first

Includes EASY, plus proactive vehicle monitoring through the Customer Uptime Center — enabling early detection of potential issues so we can act in advance and maximise your vehicle availability.

PERFORMANCE

SUPPORT + IVECO ON^{PRO}

Your fleet under control

Includes SUPPORT, plus IVECO ON^{PRO} for advanced insights to monitor vehicle performance and routes, reduce fuel consumption and improve driving style — helping you optimise efficiency across your entire fleet.

Premium Services: add more value to every mission

IVECO ON Web API

Integrate IVECO vehicles data into your systems.

Fleet Management

Get full control on your fleet productivity.

Tacho Data Download

Manage compliance with ease.

Professional Safe Report

Promote safer driving and improve fleet safety.

Maintenance & Repair

A well-maintained vehicle is more reliable, fuel-efficient and retains its value over time.
IVECO Maintenance & Repair helps you protect your productivity with a proactive, structured service approach. You benefit from expert support by certified IVECO technicians using dedicated tools, advanced diagnostics and up-to-date procedures—ensuring fast, precise interventions. All services use IVECO Original Parts, for consistent quality and long-term performance.

You can choose among pre-designed bundles or tailor your solutions combining the services and adding the coverages that better support your needs.

Combine the M&R services to build a contract tailored to your needs

Maintenance
Maintenance and lubricants, oils and fluid changes according to the Maintenance Plan as described in the customer handbook.

Wear
Covers clutch, brake pads, brake discs, brake drums or brake linings for drum brakes.

Driveline
Covers engine, fuel injection, gearbox, transmission propeller shaft and axle repairs.

Driveline Plus
Provides an intermediate level of protection, adding to the Driveline contract repairs to exhaust system, starter and alternator, other gearbox components, electricals and PTO Multipower.

Full Repair
Raises further the level of cover extending the Driveline Plus contract with repairs to the braking system (excluding wear components), clutch cylinder, suspension, heater, air conditioning, air compressor.

Additional coverage

You can further customize your cover with additional options:

ANS 24-hour assistance
Roadside assistance service for repairs covered by the warranty.

Towing service
Tow truck service conveying to the nearest repair point for repairs covered by the warranty (tow truck not included).

Auxiliary batteries
Repair and/or replacement of batteries, including ANS 24-hour callout where covered under the maintenance agreement.

Oil top up
Engine oil filling limited to 2 litres per 3.000 km.

Light bulbs
Replacement of faulty lamps.

Wiper blades
Replacement of windscreen wiper blades once a year.

Choose and combine to fulfill your requirements

You can choose the best service* levels for your business size and needs, knowing that the associated costs are fixed and predictable.

Parts & Accessories

IVECO offers you a wide range of parts and accessories to increase productivity, enhance versatility, optimize profitability, and keep your vehicle maintenance costs under control, improving your digital life on board and increasing your comfort.

Genuine Parts

HIGH PERFORMANCE

Designed to meet IVECO standards, certified **Genuine Parts** ensure **consistent performance** and **high quality** for your vehicle, with a wide choice of components.

Each part is tested and certified to guarantee IVECO quality. Delivery comes within 24h thanks to the extended IVECO network of Authorized workshop ready to support.

Reman Parts

SUSTAINABLE CHOICE

Through a dedicated and constantly evolving remanufacturing process, **IVECO Reman Parts** are restored by expert technicians to **original performance and specifications**. Each component is inspected, remanufactured and rigorously tested in line with IVECO quality standards.

Reman Parts deliver a sustainable and eco-friendly process to reduce waste and are a cost-effective solution.

Accessories

ENHANCED EXPERIENCE

IVECO Accessories offers an exclusive range of products designed to enhance the aesthetics, comfort, safety, and technological capabilities of your vehicle. Every accessory enriches and personalizes your driving experience, while boosting connectivity and operational efficiency.

IVECO Accessories are easy to install and fit perfectly on the vehicle, maximize the driving experience and the versatility of the vehicle.

IVECO

Assistance Non-Stop

IVECO Non Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your Eurocargo and your business running.
IVECO Non-Stop is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request immediately, activate the nearest workshop and follow up on the vehicle's repair. Through the app you can receive updates on the progress of your vehicle's assistance.

IVECO CAPITAL

Financial Services

IVECO CAPITAL is the financial services brand of Iveco Group, offering dealers and end-customers a comprehensive range of financing, rental, insurance and service solutions for commercial vehicles, powertrains and buses.

IVECO CAPITAL delivers tailored and flexible Mobility Solutions worldwide, empowering customers to move forward and realise their full potential.
