

Your mobility, optimized

A world of mobility solutions

With the new Eurocargo you enter a new era of intelligent mobility. A new world of aftermarket products and services designed to provide you with a complete mobility solution that helps running your business efficiently and growing in a dynamic and fast-moving industry.

The constantly expanding portfolio of IVECO Services helps you managing operation, reducing your Total Cost of Ownership, and increasing your productivity, while delivering an exceptional driver experience. The result is a more competitive, profitable, and sustainable business.

IVECO Services portfolio includes:

Connected Services

A complete ecosystem of tailored services designed around your business, enhancing efficiency, safety, and peace of mind. Thanks to a new generation of connected services including an improved Customer Portal and fully redesigned mobile apps, you can monitor your vehicle's performance in real time, plan maintenance proactively, and **maximise** both productivity and uptime.

Repair and Maintenance and Extended Warranty

Keep your vehicle in peak condition with predictable costs and maximum peace of mind. Planned maintenance, certified repairs and extended coverage beyond the standard warranty help reduce downtime, protect your investment, and ensure continuous business productivity.

Parts & Accessories

Offer a wide range of Genuine, remanufactured and second line parts designed to **maximise** vehicle uptime and productivity, together with a dedicated line of Accessories. Thanks to the certified quality and fast availability across the IVECO network, customers benefit from lower operating costs, enhanced comfort, and long term vehicle value.

Financial Services

Deliver a range of flexible financial products and **customised** solutions to support your business growth. IVECO CAPITAL provides bundle offer with insurance coverage enriched with additional services, designed to make vehicle investment simple, efficient, and sustainable.
